Private Care & Assistance

For Patients & Families

LEXINGTON HEALTH NETWORK | Private Care

630 - 748 - 3700

Our commitment to excellence in your private care needs will help you remain safely and comfortably at home

What is Private Care and Assistance?

Sometimes it takes a little extra help to meet the needs of daily living. Lexington provides non-medical private care and assistance from a compassionate team of caregivers who will help you remain safely and comfortably at home.

When is Private Care and Assistance Appropriate?

When seniors or adults are unable to fully care for themselves, they may require extra support to meet the challenges of daily living. If you are in need of additional support with your personal, non-medical needs, Lexington will exceed your expectations. When your needs change or you simply require skilled nursing support, Lexington can also integrate these additional services.

Private Care Services We Offer

- Assistance with personal needs
- Bathing & dressing
- Companionship and live-ins
- Grooming
- Light housework
- Medicine reminders
- Nutritious meal preparation
- Respite care
- Hourly or daily rates

A Nurse will provide an initial assessment to create a customized service plan based on your individual needs.

Your Private Care and Assistance Team

Lexington provides private care and assistance by a team of compassionate caregivers who:

- Can service most all of your personal needs
- Are CPR certified and supervised by a nurse
- Have successfully passed a personal interview, criminal background check, employer reference check, drug screening and have a legal work status to work in the US
- Are fully insured, bonded, screened and dedicated to meeting our and your high quality standards
